

SEWER SEAL

SEWER CLEANOUT POLYURETHANE ACCESS COVERS

Argonics polyurethane Sewer Seals are designed to easily install and remove from your sewer cleanout access points. These covers are manufactured with a magnet embedded in the middle, making them easy to find when buried under dirt or snow.

Tight seal keeps out debris

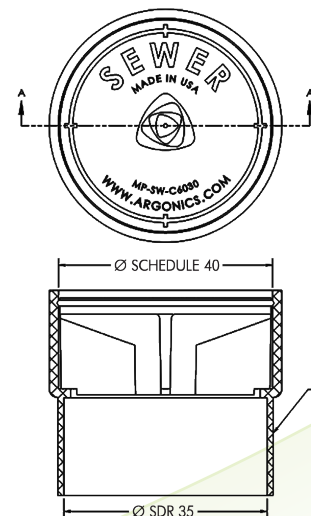

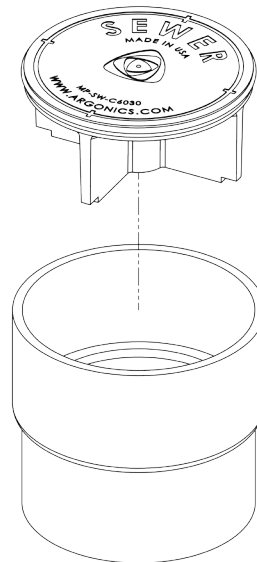

Magnet embedded for locating

BENEFITS

- Magnetic cap assures locating with ease when buried under dirt or snow
- Flexible polyurethane will not shatter like PVC
- Corrosion-resistant cap remains pliable, even in the worst winter weather
- Quick and easy installation and removal

All Argonics products are proudly made in the USA.
