

Containment Liners

URETHANE AND CERAMIC EMBEDDED

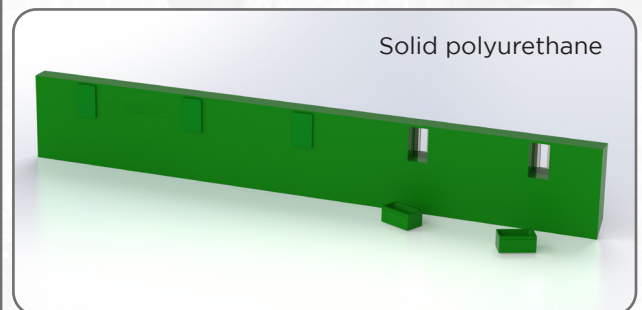

Polyurethane Containment Liners

FEATURES AND BENEFITS:

- Excellent for containing material at the transfer points on your belt line
- Extra-rugged, reinforced design with $\frac{3}{16}$ " steel
- Extremely effective in reducing spillage
- Single or double bevel available. Double bevel allows you to flip it over when one side is worn to double life of liner
- Comes with Snap-Tite™ polyurethane plugs to cover mounting slots and prevent material build-up

POLYURETHANE CONTAINMENT LINER SIZES:

Thickness	1", 2"
Height	6", 8", 10", 12"
Length	24", 36", 48", 60", 72", 96"
Bevel	0, 20°, 35°, 45°
Bevel Type	Single, double

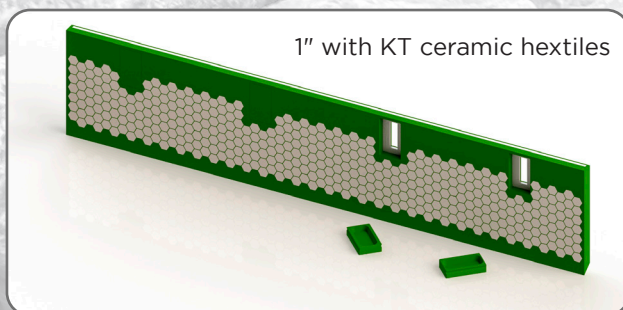

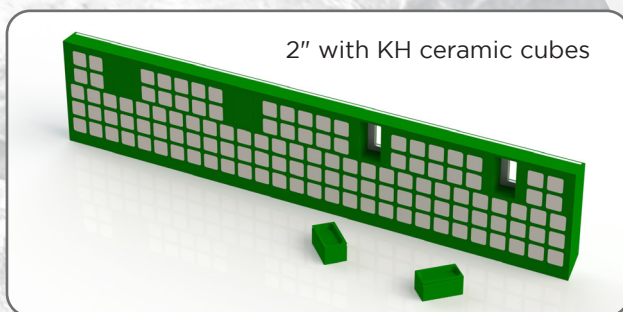

Ceramic-embedded Containment Liners

FEATURES AND BENEFITS:

- Excellent for containing material at the transfer points on your belt line
- Extra-rugged, reinforced design with $\frac{3}{16}$ " steel
- Used for extremely abrasive materials
- 1" thick contains ceramic hextiles
- 2" thick come with ceramic cubes
- Comes with Snap-Tite™ polyurethane plugs to cover mounting slots and prevent material build-up

CERAMIC CONTAINMENT LINER SIZES:

Thickness	1", 2"
Height	8", 10", 12"
Length	48", 60"
Bevel	0, 20°, 35°
Ceramics	Hextiles, cubes
