

Polyurethane Liners with Wear Indicator

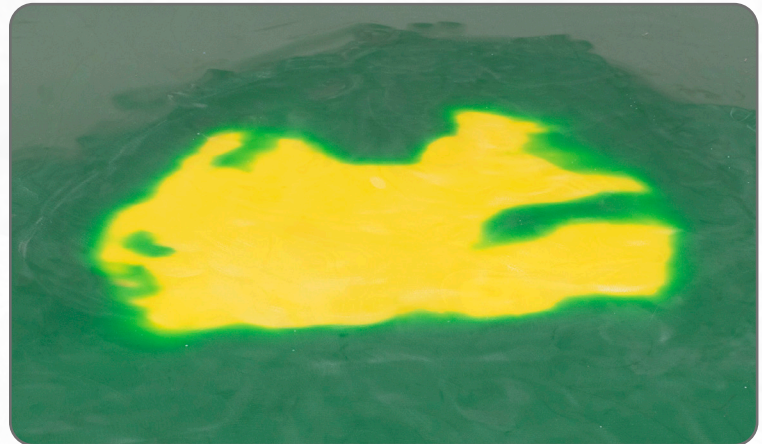

ARGONICS
ENGINEERED POLYURETHANE

**1/4" thick
wear indicator**

**Know at a glance whether it's
time to replace your liners.**

Argonics' Kryptane®
polyurethane provides
the most complete wear
protection for your equipment.

FEATURES AND BENEFITS:

- 1/4" thick contrasting color wear indicator
- Available in any of our formulations. The wear indicator layer will be the same durometer urethane as the rest of the sheet
- Available on sheets 1/2" thick or thicker, on any of our backings, including fabric, expanded, weldable, or solid metal
- Wear indicator available in standard size sheets, or custom liners
- Liners are lightweight, flexible, and provide excellent abrasion resistance
- Easy-to-install sheets reduce noise

TYPICAL APPLICATIONS:

- Bins
- Hoppers
- Turnheads
- Chutes
- Discharges
- Feeders & screens
- Unlimited uses

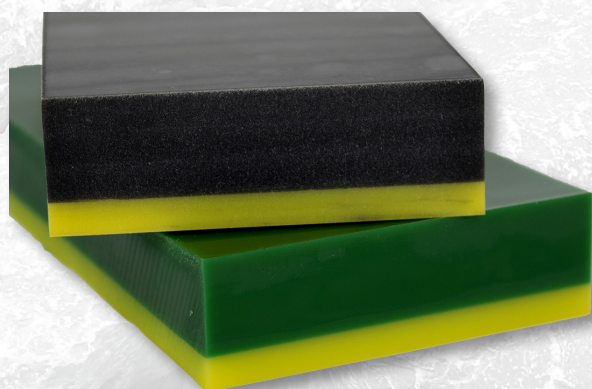

Formula/Durometer Color	Application/Material	Impact Angles	Available Thicknesses:
ESTER 63 (Y63)	Extremely elastic polyurethane with an exceptionally high resistance to impact of crushed rock up to 2" (50mm).	60° to 90°	1/2"
ETHER 80 (R80)	Resists sliding and/or impingement abrasion. Fine particles including sand, grain, 3/8" (9.5mm) minus washed materials.	Flat to 30°	5/8"
ESTER 83 (G83)	High abrasion resistance to harsh sliding, cutting and impact. Ideal for most sand and gravel materials, coal, ores.	30° to 60°	3/4"
ETHER 90 (R90)	Resists sliding and/or impact abrasion. Very low coefficient of friction. Fine particles up to 3/16" (5mm) in size, wet and dry.	Flat to 30°	
ESTER 93 (B93)	Strong abrasion resistance to sliding, grooving and impact. 1-1/2" (38mm) washed/finished product.	60° to 90°	1"
FRAS (RU83)	Specifically formulated for coal handling. Kryptane FRAS offers flame retardant anti-static properties that surpass the strictest standards.	30° to 60°	
FLAME RETARDANT (FOxx) - CAN BE ANY DUROMETER	MSHA-approved Front Line™ flame-retardant urethane can be any durometer or formulation.	30° to 60°	

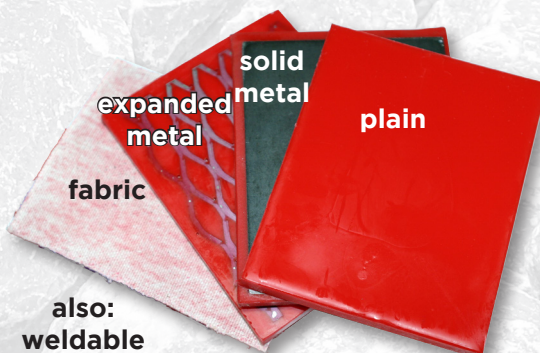

Argonics polyurethane sheets and liners are made with proven Kryptane polyurethane, the top choice for the bulk material handling industry for more than 35 years.

Sheet sizes:

- 4'x8'
- 4'x10'
- 5'x8'
- 5'x10'
- Custom sizes, too!
