

Ceramic Tile Magnetic Panels

MODULAR LINING SYSTEM

Ceramic tile magnetic panels are the newest addition to our modular lining product offerings. 4"x6" ceramic blocks offer a nearly uninterrupted ceramic surface, providing extreme wear protection.

Strong magnets hold the panels firmly in place, even on vibrating applications.

Our 1" thick panels come in 6"x12" and 12"x12" sizes, allowing you to custom fit to your specific wear pattern needs.

SIZES AVAILABLE:

- Panel sizes: 6"x12" and 12"x12"
- Thickness: 1" thick
- 1/2" thick 4"x6" ceramic tiles are embedded in our standard 83 durometer formulation

PERFECT FOR THESE APPLICATIONS:

- Conveyor transfer points
- Screen feed liners
- Chutes with high wear
- Charge chutes
- Screen discharge liners

MAGNETIC PANEL FEATURES:

- Strong rare earth magnets hold the panels in place. No welding, gluing or bolting necessary!
- Ceramic tiles provide nearly uninterrupted surface for extreme wear protection
- Ceramics are embedded in our Kryptane® polyurethane
