

# **SUPER ERASER™**

## **CONVEYOR BELT CLEANER**

## The Premier Solution for Heavy-Duty Applications

The Super Eraser Conveyor Belt Cleaner is engineered to excel in the harshest conditions, including above-ground and underground mining operations, as well as other demanding bulk material handling environments like high volume port facilities. Designed with precision and built for durability, this cleaner ensures consistent performance and longevity even in the most challenging environments.

# Why Choose the Super Eraser?

## ENGINEERED FOR EXTREME CONDITIONS

### Robust Construction:

Featuring a heavy-duty powder-coated steel frame, the Super Eraser is built to endure the most severe conditions. Stainless-steel frame is also available for extra corrosion resistance.

### Massive Blade:

Equipped with a 12" (305mm) tall Kryptane polyurethane blade, the Super Eraser delivers outstanding durability and cleaning efficiency.

### High-Speed and Heavy Load Capable:

Ideal for conveyors with large head pulleys, substantial loads, and belt speeds up to 1,000 FPM.

### Mechanical Splice Compatibility:

Designed to accommodate mechanical splices without compromising cleaning efficiency.

## UNIQUE DESIGN FEATURES

### Perma-Torque™ Tensioner:

Adjustable from 30 to 135 ft-lb (40 to 183 Nm), this system provides consistent cleaning pressure.

### Safe-Torque Ratchet System:

Allows precise yet simple adjustment of tension to meet the specific requirements of your application.

### Compact Footprint:

Mounting footprint extends only 5.5" (140 mm) from the structure, allowing the Super Eraser to integrate seamlessly into your conveyor.

### Efficient Blade Replacement:

The single-pin blade attachment allows quick and easy blade changes, reducing downtime and maintaining smooth operations.

### Versatile Fit:

Accommodates belt widths from 24" to 120" (600 to 3000 mm), with custom sizes available.

## BLADE FORMULATIONS FOR YOUR APPLICATION

Formula/ Durometer	Application
<b>ETHER 80 (R80)</b>	Good for wet applications with any pH level.
<b>ESTER 83 (G83)</b>	Our standard, high abrasion-resistant all-purpose cleaning blade.
<b>ETHER 90 (U90)</b>	Good for dry applications with any pH level.
<b>ESTER 93 (B93)</b>	Our high temperature cleaning blade.
<b>FRAS (RU83)</b>	Flame-retardant, anti-static cleaning blade.
<b>FLAME RETARDANT (FOxx)</b>	MSHA approved, FrontLine® flame-resistant cleaning blade. Can be any durometer.

Other formulations and durometers also available.

### IMPROVE YOUR HEAVY DUTY CONVEYOR SYSTEM TODAY!

Experience unparalleled performance and reliability with the Super Eraser Conveyor Belt Cleaner. Specifically designed for the most demanding environments, it is the proven choice for superior conveyor cleaning and reducing down-time.
