

Nut Protector Cups and J-Bolts

 **ARGONICS**
ENGINEERED POLYURETHANE

Argonics J-bolts and nut protector cups offer a reliable solution for securing screens to the crown bar. The polyurethane nut protectors shield the threads and nuts from damage caused by screening materials.

FEATURES AND BENEFITS:

- J-bolts securely attach screen to the crown bar
- Nut cups protect the nut from damage and breakage
- J-bolts are 6" long and available in 1/2" and 5/8" dia.
- Nut protector donuts have a 1/2" or 5/8" opening
- Nut protectors can be purchased separately for use in a wide variety of applications
- J-bolts' rounded hook reduces breakage
