

Dust Curtain

Our Dust Curtain is a straight-forward, simple solution to dust containment and control. The Dust Curtain utilizes our exclusive high performance polyurethane which stands up to the harshest environments and creates a semi-impermeable barrier.

FEATURES:

- 22-inch tall curtain available in solid polyurethane or with slots
- Easy to cut to conform to your belt's trough
- 1/4" thick polyurethane curtain sandwiched between two pieces of angle iron for easy installation
- Available with or without angle iron
- 18" - 72" widths available
- Can also be used as stilling curtains

BENEFITS:

- Improves dust containment
- Helps to reduce air movement that produces dust, allowing particulate to settle back onto the belt
- Made with Kryptane® polyurethane for superior abrasion resistance - outlasts rubber curtains
- Also available in our MSHA-approved flame retardant and anti-static formulations
