

ERASER EST CONVEYOR BELT CLEANER

Introducing the Eraser EST

The Eraser EST conveyor belt cleaner is designed for harsh environments or highly abrasive materials that cause extreme wear.

The extremely durable **tungsten-tipped polyurethane blades** are designed to effectively remove material while providing an extended service life.

Engineered for efficiency and dependability, the Eraser EST delivers top-tier performance across various challenging applications, all while safeguarding the integrity of your conveyor system.

Why Choose the Eraser EST?

UNIQUE DESIGN FEATURES

Low-maintenance Operation:

The Eraser EST Belt Cleaner is designed for minimal maintenance. The cleaner's tungsten-tipped blades provide an extended service life, reducing downtime and enhancing operational efficiency.

Reliable Performance:

The absence of exposed springs or components susceptible to material build-up ensures reliable performance in dusty or abrasive environments. Powder-coated steel components hold up in harsh environments.

Kryptane® Polyurethane:

Our Kryptane polyurethane stands out due to its exceptional durability, abrasion resistance, and versatility across various applications. Engineered specifically for demanding environments, it exhibits superior resilience against wear and tear.

BENEFITS AND HIGHLIGHTS

Perma-Torque™ Tensioner:

Adjustable from 20 to 80 ft-lb (27 to 108 Nm), this system provides consistent cleaning pressure.

Safe Torque™ Ratchet System:

Allows precise yet simple adjustment of tension to meet the specific requirements of your application.

Compact Footprint:

Mounting footprint extends only 5" (127 mm) from the structure, allowing the Eraser EST to integrate seamlessly into your conveyor.

Efficient Blade Replacement:

The channel allows quick and easy blade changes, reducing downtime and maintaining smooth operations.

Versatile Fit:

Accommodates belt widths from 24" to 72" (610 to 1829 mm).
