

Argo Access Door

The Argonics Argo Access Door delivers safe, reliable access to chutes, hoppers, and material handling equipment for inspection and maintenance.

Engineered with a rugged steel frame and durable components, it provides a secure, dust-tight seal while allowing quick visual inspection and easy access when needed. Designed for harsh environments, the Argo Access Door helps reduce downtime, improve safety, and keep operations running efficiently.

FEATURES:

- **Integrated Viewing Window**
Inspect internal conditions utilizing the safety door
- **Heavy-Duty Steel Construction**
Built for durability in demanding environments
- **Dust-Tight Sealing Design**
Helps contain material and reduce fugitive dust
- **Powder-Coated Finish**
Provides durable, corrosion-resistant protection, won't chip or peel like paint
- **Flexible Mounting Options**
Easily installs on new or existing chute structures
- **Built for Harsh Environments**
Designed to perform in demanding bulk handling applications

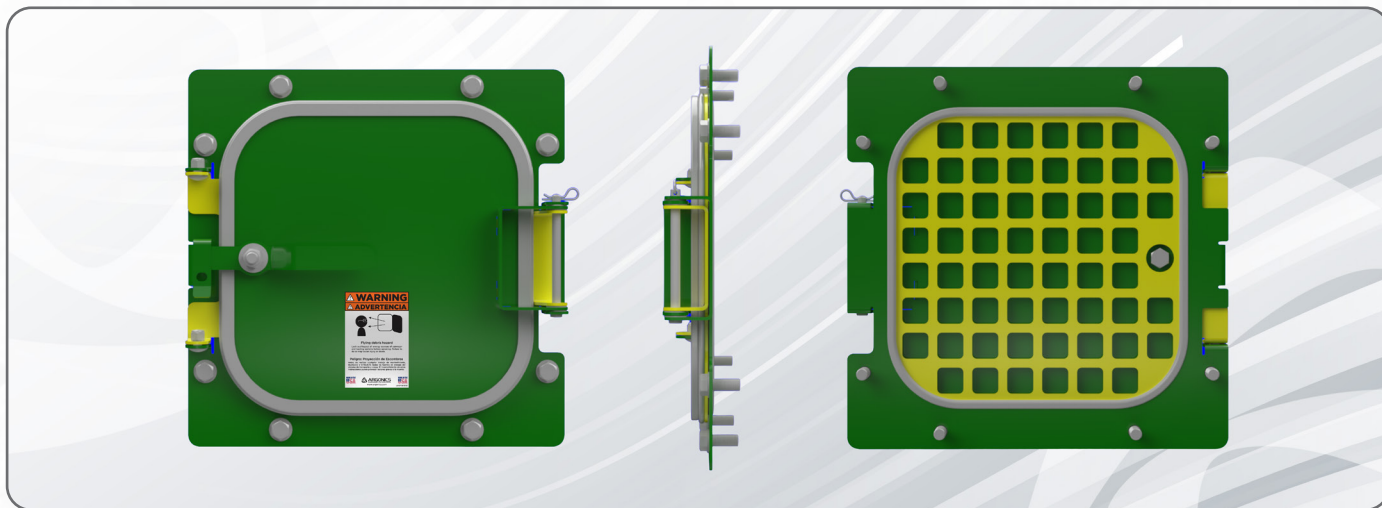

BENEFITS:

- **Reduce Downtime**
Inspect conditions without interrupting production
- **Improve Safety**
Minimize exposure during maintenance and inspections
- **Increase Efficiency**
Identify and address issues before they escalate
- **Lower Maintenance Costs**
Durable materials extend service life
- **Better Dust Control**
Maintain cleaner, safer work environments
- **Faster Inspections**
Spend less time opening, closing, and securing doors

Designed for Visibility & Access

Designed for both visibility and access, the Argo Access Door combines strength, sealing performance, and ease of use in one integrated solution.

The reinforced frame and secure latching system maintain a tight seal under vibration and material flow, while the viewing window allows operators to monitor conditions in real time, reducing unnecessary shutdowns and improving operational awareness.

Heavy-duty construction with secure latching ensures a tight, reliable seal even in high-impact environments.

Integrated viewing window allows real-time inspection while maintaining containment and safety.

Sizes & Availability

The Argo Access Door is available in multiple standard sizes to accommodate a wide range of chute and equipment configurations.

Standard Sizes Include:

- 12" x 12"
- 12" x 18"
- 18" x 18"
- 18" x 24"
- 24" x 24"
- 24" x 36"

Engineered for Safer, Smarter Maintenance

The Argo Access Door is built to improve access without compromising safety or performance.

Its durable design, heavy-duty materials, and secure sealing system make it ideal for high-wear, high-impact applications where reliability is critical.

From routine inspections to emergency access, it helps keep your operation running cleaner, safer, and more efficiently.

Complies with ANSI B20.1 1984 and ISO 1819-02.1.11
