

Screen Deck Center Hold Downs

Argonics manufactures center hold downs from our wear-resistant Kryptane® polyurethane. Designed to secure tensioned and modular screens, these hold downs reduce movement and enhance screen stability during operation.

FEATURES AND BENEFITS:

- Lasts 5 times longer than rubber
- Available in 4-foot and 5-foot lengths
- Used on 7', 8', and 10' double-crown split screens
- 1-3/8" thick top absorbs the shock of impact
- Extends the life of your screen
- Hose can be run down the center to allow for tighter fit, if needed
